SUMMARY

Electronics and Computer Science Engineering graduate with hands-on experience in Python, Flask, MongoDB, SQL, and AI-based application development. Skilled in developing full-stack web applications, machine learning-based systems, and real-time projects using modern technologies. Strong interest in Software Development, AI Applications, and Data Analytics with practical experience in project development, backend integration, and responsive web design.

SKILLS

- **Programming Languages :** Python, JavaScript, SQL
 - **Web Technologies:** HTML, CSS, Flask, REST APIs
 - **BI & Tools:** Git, Power BI(Basic), GitHub, VS code, Linux
 - **Computer Science Fundamentals:** Data Structures, DBMS, Operating Systems
 - **Databases:** MySQL, MongoDB
 - **Data Analysis & ML:** Pandas, NumPy, Matplotlib, Scikit-learn
 - **Soft Skills:** Problem Solving, Teamwork, Analytical Thinking
-

EXPERIENCE

AI Intern – Mauli Infotech (OPC) Pvt. Ltd. (Remote)

December 2025 – February 2026

- Developed an NLP-based assistant to retrieve system insights from natural language queries.
- Processed and analyzed datasets using Python to improve response accuracy.
- Assisted in backend logic implementation and data handling workflows.
- Collaborated with team members in debugging and testing software modules.

Certificate: [View Certificate](#)

PROJECTS

Health Insurance Fraud Detection using AI and Blockchain | [GitHub](#) | [Demo](#)

Tech Stack: Python, Flask, MongoDB, Machine Learning

- Developed a Flask-based web application for insurance fraud detection using machine learning.
- Implemented real-time prediction logic to analyze claim patterns and identify suspicious activity.
- Integrated secure database handling and blockchain-based logging concepts.
- Designed responsive frontend pages and integrated backend APIs for seamless user interaction.

CampusAI – AI-Based Student Assistance Platform | [Github](#) | [Demo](#)

Tech Stack: Python, Flask, JavaScript, MongoDB

- Developed an AI-powered student assistance platform for academic support and information retrieval.
 - Implemented chatbot-style interaction and backend logic for handling user queries.
 - Collaborated on frontend development and database integration during hackathon development.
 - Designed responsive web interfaces and integrated database functionality for data management.
-

ACHIEVEMENTS

- Secured 1st Rank in Fourth Year (B.E.) with SGPA: 10.0
 - [Hack To Crack 2.0 – ViMEET \(National-level Hackathon Participation\)](#) : Designed and prototyped a telemedicine platform to improve rural healthcare access.
 - [Tech Aspira 2025 – Project Competition \(PHCET\)](#) : Presented the telemedicine project at a college-level competition organized by the Department of Electronics & Computer Science.
-

EDUCATION

Pillai HOC College Of Engineering and Technology – Rasayani, Maharashtra

Bachelor of Engineering – Electronics and Computer Science Engineering

CGPA: 7.75

Private High School and Junior College, Pen, Raigad

HSC – 58.82%

S. M. N. Nene Kanya Vidyalaya, Pen, Raigad

SSC – 89.20%

CERTIFICATIONS & COURSES

- Advanced AI & Data Science – Ashwa Education
Certificate: [View Certificate](#)
